PROJECTS & ENTREPRENEURSHIP

KL Stall & Decors
- Started an event management business in my 2nd year of college and am handling decorations, food, and arrangements. Managing bookings and planning for expanding event services online.
- Created a online business website for this business.
- **Website:** KL STALL

Projects
- **KL STALL & DECORS – Event Management Web Application**
- **Tech Stack:** HTML, CSS, JavaScript, Tailwind CSS, React, Node.js/Express (planned), Supabase /MySQL, Razorpay (Payment integration), GitHub
- **Description:** Built a responsive event-management web application that showcases decoration packages, buffet stalls, and full event services. Implemented modern UI/UX using Tailwind CSS, smooth animations, structured navigation, and mobile-first design. Designed the architecture to support upcoming backend modules, admin dashboard, and an AI-powered chatbot for automated customer queries and booking assistance.

Outcomes

- Improved customer interaction and enquiry handling for KL Stall & Decors.
- Enhanced brand credibility with a modern, professional online presence.
- Streamlined the selection process for event services with a user-friendly layout
